

# AUGUSTOW CANAL

## DESCRIPTION

### ● Augustow Canal

The Augustów Canal is unique engineering work, on a European scale from the first half of the 19th century. The total length of the canal is over 102.2km of which 80km is on Polish territory and the rest in Belarus. Currently the Canal is used as a scenic waterway, one of the most beautiful water trails in Poland, ideal for kayaking or boat trips.
