

# WIELICZKA SALT MINE

Wieliczka salt mine (15 km from Krakow), Europe's oldest salt mine, recognised by UNESCO as the World Heritage Monument. A 2,5 km walk with an expert guide through the chambers and corridors decorated with sculptures and figures, is an unforgettable attraction. Magnificent chapels, captivating underground lakes, original tools and equipment and traces of mining works allow us to understand the human struggle against the elements, the miners' work, their passion and their beliefs.
